INDEX.

PAGE

Abbé, Cleveland—
Distribution of Nebulæ with respect to the Milky Way 156

Absorption—
Evidence of Absorption of Light in Space ... 155

Airy, Sir G. B.—
Notice of new edition of his "Popular Astronomy"... 171

America—
Origin of the Name America 224

Ames, J. S.—
Notice of his paper "On the Rhythmical Group of Hydrogen Lines" 170

Aragonite—
Frequently replaced by Calcite in Fossil Shells 68

Arcturus—
On the proper Motion and actual Magnitude of 21

Atmosphere—
Height of the Solar Atmosphere 28
Height of the Earth's Atmosphere 214

Backhouse, T. W.—
On the Magnitude of Canopus 212

Ball, Platt—
Notice of his book, "Are the Effects of Use and Disuse Inherited?" 12

Balloons—
Photographs taken from 212

Balmer, J. J.—
His Formula connecting the Positions of the Hydrogen Lines 170

Barnard, E. E.—
His Photograph of the Sagittarius Region 50, 232
On the Comparison of Photographs of the Milky Way 93

Barrett, T. S.—
Letter on Magic Squares 16
Letter on Recurring Decimals 17
Article on the Magic Square of Four ... 45
Letters on the Magic Square of Four 71, 156
The Factorials of High Numbers 210

PAGE

Beynon, Richard—
International Yachting 183
Explosions on Petroleum Vessels 233

Boeddicker, Dr.—
His Drawing of the Milky Way 93

Boys, Prof. C. V.—
Soap Bubbles and the Forces which Mould them 110

Buckland, Miss A. W.—
Our invisible Foes; or Bacteria in Agriculture 75

Buckton, G. B.—
Monograph of the British Cicadæ 111

Burnham, S. W.—
Note on the Orbit of the Double Star Σ2 ... 48
His Selection of the Site of the Lick Observatory... 31
The Companion to α Ursæ Majoris (β 1077) 129

Butler, E. A.—
The Book-louse 5
The Silver-fish Insect 25
The House Cricket 82
Gnats, Midges and Mosquitos 121, 141, 161
Earwigs... ... ... 181, 201
On Human Pediculi 221

Calendar—
The Day of the Week for any Date 47, 70, 94, 133

California—
Observatories in 31

Chambers, G. F.—
Notice of his "Pictorial Astronomy" ... 171

Chartres, R.—
Letter on Recurring Decimals 30
Letter on the Attraction of a Thin Shell ... 134

Christie, R. W. D.—
Rule for finding the Day of the Week for any Date 30
Letter on Perpetual Calendars 94

Christopher, H.—
On the Cause of Volcanic Action 134

683984

PAGE

Clerke, Miss Agnes M.—
Notice of her book, "The System of the Stars" 32
Article on Variable Stars of the Algol Type 53
The Observation of Red Stars 156
Letter on the Observation of Red Stars ... 191

Clodd, E.—
Review of Dr. Nansen's "First Crossing of Greenland" 1

Clusters—
Relative Size of Stars in Clusters 92
Clusters of Stars about α Crucis 112

Coal Sack—
Region of the Milky Way 111

Cobbe, Miss F. P.—
Letter on Effects of Snake Poison 229

Cooke, T.—
Notice of book on "The Adjustment and Testing of Telescopes" 214

Cornish, Vaughan—
Artificial Cold 56
Calcite and Aragonite in Shells 67
The Artificial Production of Rubies and other Precious Stones 81
The Experimental Method in Geology ... 125
The Chemistry of the Dairy 147
The Mineralogy of Meteorites 163
The Diamond Mines of South Africa ... 186

Corona—
Temperature of Bodies situated within the Corona 14, 28

Cowan, T. W.—
Notice of his book on "The Honey Bee" ... 89

Crookshank—
His Bacteriological Investigations 76

Crowe, Eyre—
The Observation of the Transit of Venus by Jeremiah Horrocks 107, 129

Dark Areas—
In Milky Way 111, 230

Darwin, Prof. George—
Collisions of Meteors 29

Davidson, J. Gwen—
Books on Astronomical Photography ... 115

Denning, W. F.—
Stationary Radiant Points of Meteors ... 116
Notice of his book, "Telescopic Work for Starlight Evenings" 132

Dicker, Theodore W.—
Dissemination of Seeds 65

PAGE

Draper, Dr. Henry—
First Photograph of a Nebula by .. (Note) 169

Egyptian—
Villages built on Ruins of Earlier Villages ... 69

Electric Discharges—
Application of Photography to the Study of 32

Elkin, Dr.—
His Estimate of the Parallax of Arcturus ... 22
His Investigations with respect to the Pleiades Cluster 92

Ellis, Havelock—
Notice of his book on "The Criminal" ... 52

Equatorial—
Early Use of Equatorial Mountings 130

Espin, The Rev. T. E.—
On the Red Stars near the Cygnus Nebula ... 211

Franks, W. S.—
Letter on the Observation of Red Stars ... 173

Fraunhofer—
His Improvements of the Achromatic Telescope and Observation of Stellar Spectra (Note) 168

Fry, Lord Justice—
British Mosses 221

Gattie, W. Montagu—
Whist Columns ... 37, 58, 79, 96, 139, 158

Geikie, Sir Archibald—
Notice of his "Outlines of Field Geology" ... 171

Gordon, A. W.—
Sums of Digits of Square and Cube Numbers 228

Gore, J. E.—
Clustering Stars and Star Streams ... 85
A Double Planet 175
On the Mass and Brightness of Binary Stars 209
Letter on the Magnitude of Canopus ... 191
On some Peculiarities of the Variable Stars.. 193

Gossip, G. H. D.—
Chess Column for January 20

Griffiths, A. B.—
Notice of his "Manual of Assaying" ... 172

Guillemard, F. H. H.—
Notice of his book on "Ferdinand Magellan" 33

Gunsberg, I.—
Chess Column 40

Haggard, Rider—
On his Astronomy in "King Solomon's Mines" 29

PAGE

Hale, Geo. E.—
Hydrogen Lines in Solar and Stellar Spectra 169

Hansard, Arnold S.—
Perpetual Calendars 70

Hart, C. F.—
Letter on the Earthy Smell after Rain ... 230

Henry, Monsieur Paul—
Letter on the Supposed Duplicity of Wega ... 16
His Photographs of Stellar Spectra 169

Herschel, Sir W.—
Recognizes that Stars are more Thickly Grouped in the Region of the Milky Way than elsewhere 41
His Observations of Double Stars 115

Holden, Prof.—
The Winter Snows at the Lick Observatory 32

Horrocks, Jeremiah—
His Observation of the Transit of Venus of 24th November, 1639, O.S. ... 107, 130

Huggins, W.—
His Observations of Stellar Spectra 169

Hughes, F. S.—
Whist Column for January 18

Hutchinson, The Rev. H. N.—
What is a Volcano? 87
What is the cause of Volcanic Action? ... 104
Notice of his book, "The Autobiography of the Earth" 111
Lunar and Terrestrial Volcanos 145

Ingall, Herbert—
Hydroid Zoophytes 176

Janssen, Dr. J.—
His Photographs of the Solar Photosphere ... 14

Johnson, B. B.—
Notes from Cambridge "Anatomy" in the olden days 56

Keltie, J. Scott—
Notice of his book on "Applied Geography" 13

Kemp, J. T.—
The Origin of the Chalk 103

Kendall, P. F.—
Distribution of Boulders over the North of England 156

Kimball, Arthur L.—
Notice of his book on "The Physical Properties of Gases" 51

PAGE

Kinetic—
Theory of Gases 28, 29, 51, 213

Kirby, R. H., Jun.—
Letter on the Astronomy of Mr. Rider Haggard's "King Solomon's Mines" ... 29

Lick Observatory—
Life at, in Winter 31

Locock, C. D.—
Chess Columns from May onwards.

Lovell, K. B.—
Notice of book, "Nature's Wonder-Workers" 111

Lund, C.—
Letter on Perpetual Calendars 133

Lydekker, R.—
Primeval Salamanders 3
Rudimentary Structures 23
Giant Birds 43
Numulites and Mountains 64
Swimming Animals 152, 168
Flying Animals 112, 127, 165
Crocodiles and Alligators 206
Sea Urchins 235

Lynn, W. T.—
Notice of his book, "Celestial Motions" ... 90
Letter on Mitchel's papers in the *Philosophical Transactions* 115

Martin, Annie—
Notice of her book, "Home Life on an Ostrich Farm" 12

Martin, Edward A.—
The London Basin 216

Maunder, E. W.—
On the actual magnitude of the Star Arcturus 21
Letter on the Intelligence of a Cat 49
Article on the Classification of Stellar Spectra 71
Second Article on the Classification of Stellar Spectra 101
Note on the Brightness of Double Stars ... 133

Max Wolf—
His Photographs of the Milky Way 172, 188, 230

McPherson, Dr. J. G.—
The Meteorology of Ben Nevis 214

McRay, Charles—
Notice of his book, "Fathers of Biology" ... 33

Mendola, Raphael—
Notice of his book, "Coal, and what we get from it" 172

XUM

PAGE

Meteorites—
Clashing of, could not produce Heat of Sun... 14

Meteor Radiants—
Accuracy of Identification of 96

Michell, The Rev. John—
His Application of the Theory of Probabilities to the Distribution of Stars in Space 41, 91
His papers in the *Philosophical Transactions* 115

Milky Way—
On the Form of the; by J. R. Sutton ... 41
The Milky Way in the Southern Hemisphere; by A. C. Ranyard 50
The Coal Sack Region of the; by A. C. Ranyard 111
On the Plan of the Sidereal System; by J. R. Sutton 123
On the Distance and Structure of the Milky Way in Cygnus; by A. C. Ranyard ... 188
On the Dark Structures in the Milky Way; by A. C. Ranyard 230

Monck, W. H. S.—
Letter on Stationary and Long-Enduring Radiants of Meteors 95, 117
Letter on the Brilliancy of Double Stars ... 135

Mosses—
Paper on British Mosses; by Lord Justice Fry 221

Nansen, Dr.—
Review of "First Crossing of Greenland" ... 1

Nebecula Major—
Spiral Structure of 51

Nebulæ—
Distribution of Small Planetary 155
Distribution of Spiral Nebulæ 50

Newton, Sir Isaac—
Rejects Theory that Sun could be a Cool Body surrounded by a Heat-Giving Envelope ... ... (Note) 105

Owen, J. A.—
Notice of his book, "Annals of a Fishing Village" 33

Peal, S. E.—
Letter on the Rays from Lunar Volcanoes ... 191

Pharaoh—
Rameses II., the Pharaoh of the Oppression 69

Photographic Irradiation—
Note on... 111

Photography—
Books on Celestial Photography 115

PAGE

Photosphere—
Structure of the Solar Photosphere 13
Brightness of the Photosphere of Stars (Note) 22

Pickering, Prof. E. C.—
His paper on the Dimensions of the Fixed Stars... ... ... (Note) 55
Spectra of Stars in the Pleiades Cluster ... 92
Nebulous Streak passing through 16 Faint Stars 93
Catalogue of Stellar Spectra 231

Polarization—
Of the Light of the Corona ... ... (Note) 14

Prince, C. L.—
A Perpetual Calendar... 47

Proctor, Mrs. S. D.—
Paper on Californian Observatories 31

Proctor, R. A.—
Memorial Observatory 32
Distribution of Nebulæ 155

Proper Motion—
Of Arcturus 21

Provis, F. J.—
Letter on Cross-Fertilization... 71

Ranyard, A. Cowper—
The Sun's Photosphere 13
The Milky Way in the Southern Hemisphere 50, 75
The Pleiades Cluster and its Probable Connection with the Milky Way 91
Astronomy as taught in Academy Pictures ... 107
The Coal Sack Region of the Milky Way ... 111
On the Space-Penetrating Power of Large Telescopes 154
On the Rhythmical Group of Hydrogen Lines visible in many Stellar Spectra 168
On the Distance and Structure of the Milky Way in Cygnus 188
The Upper Atmosphere 212
Dark Structures in the Milky Way 230
Note on the Temperature of the Planet Mars 16
Note on Magic Squares 17
Note on the Brightness of the Photosphere of Stars 22, 73
Note on the Height of the Solar Atmosphere 28
Note on Possible Duration of a Solar Eclipse 30
Note on Variation of Light during the transit of a Star of the Algol type 55
Note on the Classification of Stellar Spectra 72
Note on Supposed Long-Enduring Meteor Radiants 96
Note on Mr. Eyre Crowe's picture of Jeremiah Horrocks 130
Note on the Attraction of a Thin Shell ... 134
Note on the Rays or Streaks from Lunar Volcanoes 147, 191
Note on the Absence of a Lunar Atmosphere 193

PAGE

Ranyard, A. Cowper—*continued.*
Note on the Distribution of Short Period Variable Stars 194
Note on Sums of Digits of Square and Cube Numbers 229

Reclus, Elie—
Notice of his book on "Primitive Folk" ... 232

Recurring Decimals—
Letter on; from T. S. Barrett 17
Letter on; from R. Chartres 30

Roberts, Isaac—
His Photographs of the Pleiades Cluster ... 93

Roper, E.—
Notice of his book, "By Track and Trail" ... 111

Rubies—
Artificial Production of 81

Russell, H. C.—
His Photographs of the Milky Way and Nebula in the Southern Hemisphere ... 51
Letter on the Comparison of Photographs of the Milky Way 172

Sadler, Herbert—
Face of the Sky for each month.

Salamanders—
Paper by Mr. Lydekker on 3

Sawer, J. Ch.—
The Perfumes of Antiquity 195

Shaw, J.—
Snow on Mars 16
Stellar Evolution 29

irian Stars—
Comparative Brightness of, as compared with Solar Stars 73

Smith, J. Pentland—
Insectivorous Plants 8
Contrivances for the Cross-Fertilization of Plants 34
A Seed, and what it contains 61
The Travels and Life-History of a Fungus ... 107
The Potato Fungus 135
The Fertilization of two Common British Orchids 149
The Mushroom... 203

Spectra—
Of Stars, the Classification of 71

Spencer, Herbert—
On the Distribution of Nebulæ 156

Spiral Nebulæ—
Not symmetrically Arranged with respect to the Milky Way 50

PAGE

Star-Zone—
Zone of Large Stars associated with the Milky Way 91

Stewart, J. J.—
Articles on Some Practical Applications of Electricity 33, 174, 225

Sutton, John Richard—
On the Form of the Milky Way 41
On the Plan of the Sidereal System 123

Taylor, A. G.—
Temperature of the Corona 28

Taylor, Canon Isaac—
Excavations at Luxor 69
A Gossip on Ghost-Names 223

Telescopes—
Space-Penetrating Power of 154

Temperature—
Of Bodies within the Solar Corona ... 14, 28
Of Surface of the Planet Mars 16
Note on the Temperature of the Interior of the Earth 105

Tree-Like Form—
Of Structure in Mr. Barnard's Photograph of the Milky Way in Sagittarius ... 51, 232

Trouvelot, Monsieur—
Application of Photography to the Study of Electric Discharges 32

Turner, H. H.—
Notice of his new edition of Airy's "Popular Astronomy" 171

Vogel, Dr. H.—
His Measures of the Positions of the Hydrogen Lines 169

Whale—
Rudimentary Hind Limb of 24

White, Arthur Silva—
Notice of his book on "The Development of Africa" 13

Williams, Joseph W.—
The Life-History of *Filaria Sanguinis Hominis* 143

Willow-Leaf—
Structure of Photosphere 13

Wilson, The Rev. Alex. S.—
Birds and Berries 52, 133, 215

Wright, Lewis—
Notice of his book on "Optical Projection" 133

Young, Prof. C. A.—
On the Upper Limit of the Atmosphere ... 214

XUM

INDEX OF ILLUSTRATIONS.

PAGE

Algol-Stars—
Diagrams illustrating Variations of Light of 55

Alligators—
Skulls of 207

Ammonite—
Shell of 154

Argus—
Photograph of the η Argus Region of the Milky Way 112

Atmosphere—
Diagram illustrating Height of ... 213

Balloon—
Photographs taken from 212

Bat—
Bones of the Fore-limb of the Bat 129

Bee—
Sting, Poison-gland, Heart, and Salivary glands of Honey-bee ... 91

Book-louse—
Head, Mandible, Wings, and Body of 6

Burnham—
Orbits of Double Stars 48

Calendar—
Perpetual Calendars ... 48, 70, 75

Cluster—
Of Stars round 5 Vulpeculæ ... 85

Coal Sack—
Photograph of the Coal Sack Region of the Milky Way ... 112

Cricket—
Mandible and Mouth Organs of ... 83
Wing and Auditory Organ in Tibia of 84

Crocodile—
Skulls of 206, 208

Cygnus—
Photographs of Regions round α, ϵ, and ζ Cygni ... 188, 189, 231, 232

Dark Structures—
In Milky Way ... 230, 231, 232

Ear—
The Human Ear 25

Earwigs—
Forceps and other parts of 181, 182, 201, 203

Echinoderm—
Pictures of Fossil and Modern Sea-Urchins 236, 237

Electric Discharges—
Photographic traces left by ... 32

Fern—
Transverse Section of Leaf, and Fructification of Leaf and Sporangium 61

PAGE

Filaria—
Filaria sanguinis hominis 144

Flying Fish—
Flying Insect and Pterodactyle .. 114

Ganoid—
An Extinct Ganoid Fish 166

Gnat—
Photographs of the Larva and Pupa of 122
Figures of spiracular Horn, &c. 142, 161

Grampus—
The Common Grampus 152

Greenland—
Pictures from Dr. Nansen's "First Crossing of Greenland" ... 2

Honeycomb—
Brood Comb and Royal Cells ... 89

Ichthyosaurus—
Skeleton of 167

Lick Observatory—
Photograph of, taken after Snow-storm 31

Metacarpels—
Of Extinct Ungulate Animal ... 23

Milky Way—
Diagram illustrating Mr. Proctor's Spiral Theory of 42
Photographs of the 50, 112, 188

Moa—
Bones of Leg of Giant Moa ... 44

Mosquitos—
Figures illustrating Life-History of Gnats, Midges and Mosquitos 122, 142

Mosses—
Pictures of Hypnum Polytrichum, &c. 221, 222

Mushroom—
Diagram showing Mycelium Gills, &c. 204

Nebecula—
Photographs of the Nebecula, Major and Minor 50

Numulite—
View and Section of 64

Orchid—
Diagrammatic view of Orchis Maculata 149, 151
Photograph of Cattleya Mossiæ ... 150

Orion—
Photograph of Nebula and Stars in 50

Ovule—
Diagrams and Sections of 63

Pediculi—
Female Head Louse 227
Proboscis of Body Louse 228

PAGE

Pelican—
Webbed Foot of 167

Perch—
The Common Perch 165

Photosphere—
Photographs of the Sun's Photosphere by Dr. Janssen 10

Pitcher Plants—
Modified Leaves and Tendrils of ... 8, 9
Epidermis and Digestive Surface of Glands and Pitcher ... 10, 11

Pleiades—
Photograph of the Pleiades Nebula, by Mr. Isaac Roberts 92

Potato Blight—
Pictures illustrating growth of Fungus 136

Rameses II.—
Photograph of Stone Figure of ... 69

Rudimentary—
Rudimentary Hind Limb of Whale 24

Sagittarius—
Photograph of Rich Region in 50, 232
Diagram showing Stars photographed in 94

Salamander—
Teeth and Jaw of Primeval S. ... 3
Skull of Giant Primeval S. ... 4

Sea Urchin—
Pictures of Fossil Echinoids 236, 237

Seal—
Dr. Nansen's Party shooting Bladder-nosed Seals 1
The Common Seal 185

Silver Fish—
Labrum, Mandible, Scale, and whole Body of Silver Fish insect 36

Spherical Shell—
Diagram illustrating attraction of 134

Stellar Spectra—
Photographs and Drawings of ... 169

Sun Spots—
Diagram illustrating Development of Spots in various Heliographic Latitudes... 14

Temple—
Photograph of Intaglio, representing front of an Egyptian Temple 69

Variable Stars—
Diagrams showing distribution of Short Period Variable Stars ... 194

Wheat Rust—
Rust or Mildew on Wheat Leaf ... 108

Zoophytes—
Hydroid Zoophytes 176

XUM
